

WET-CABI

For Music instruments

Specification:

- Humidity Control: Accurate to $\pm 5\sim 7\%$ RH , range from 40 to 75%RH relative humidity
Recommended level of humidity is between 50 to 60%RH.
- Energy Consumption: 100V (50/60Hz) Max.9~33W/H.
Body: Mahogany style wood with melamine finish.
Door: Super-insulated and vapor-sealed by magnet rubber and key-lock, and thermo-hygrometer
- Partition: melamine finish with variable set position
- Humidification System: Automatically maintains selected humidity level with both thermo-module and batch process system
- Ventilation: Intermittent ventilation system
- Process of Humidification: Natural vaporization and manually re-fill water reservoirs
- Accessories: ●600ml of heat proof 120C polypropylene liquid tray
●Pure Humidity liquid DC-W1000 (Prevent from mold, dust, and odor)500ml
●Remark: To prevent odors and foul tastes from the bacteria, be sure to use this pure liquid.

Principle of WET-CABI Humidor

The single most important design attribute of a WET-CABI™ is its ability to hold humidity. Natural vaporization comes out from the liquid tray. Then the thermo-module air flow system automatically makes it mixed with the vapor and air, and stirs the air inside the cabinet at the set point. It normally takes twelve hours to stabilize the humidity.

Storable
6 guitars

HUW-602-G6

Storable six violins in sideways

- Outer Dimension: W1,080xD593xH1,460mm
- Inside Dimension: W1,040xD460xH1,240 (593 ℓ)
- Material: Quality mahogany style wood with melamine dressing plate (Inner: White melamine)
- Ventilation: Intermittent ventilation system with fan
- 100~115V (50/60Hz) Max33W/H ■ 110kg
- 220~240V (50/60Hz) Max16.5W/H
- Attachments: Wooden Partition 5, Shelve 1, Keys 2, Thermo-hygrometer 1, Tray set 2, Humidity Liquid 2

Storable
6 guitars

HUW-603-G5

Storable one to two violins facing front and three violins in sideways

- Outer Dimension: W1,080 × D593 × H1,460mm
- Inside Dimension: W1,040 × D460 × H1,240 (593 ℓ)
- Material: Quality mahogany style wood with melamine dressing plate (Inner: White melamine)
- Ventilation: Intermittent ventilation system with fan
- 100~115V (50/60Hz) Max33W/H ■ 110kg
- 220~240V (50/60Hz) Max16.5W/H
- Attachments: Wooden Partition 3, Shelve 1, Keys 2, Thermo-hygrometer 1, Tray set 2, Humidity Liquid 2

Partitions of each model are detachable.

Eliminates rusting molds, bacteria, and odor.

- Remark: To prevent odors and foul tastes from the bacteria, be sure to use this pure liquid. Suggest periodical thermal sterilization.

- The colors in printed catalogs may defer due to color ink conditions. Make sure its color of the product when delivered.
- Price may change without notice in accordance with the hike of raw materials and the parts.
- The prices indicated are excluded guitar displayed. ● Shipping charge is added.
