

Protect from moisture damage! Essentials of humidity management.

For business

DRY-CABI®

catalog NO.
2021/9

High humidity (50~75%RH) to medium humidity (25~50%RH) to low humidity (10~20%RH) to ultra low humidity (1%RH or less)

High quality

High performance

Robustness

Various types

Offer relief and cost down
against the harm of humidity.

E956 type ALFA-X

TYPE	Setting humidity	Use	Catalog page
DRY-CABI Energy saving standard type Medium humidity type	25~50 %RH	Optical Products, Photography, Media Supplies Lens, camera, digital camera, microscope, telescope, video camera, optical measurement equipment, micro photo, film, VHS, CD, FD, musical instrument, microphone Paper products, arts and crafts, cultural assets Old books, works of art, swords, buried artifacts, drawings, antiques, printed matter, labels, paper products, etc. <i>Various research items, medical, chemical industry products, machine parts, related, food, etc.</i>	2 ~ 3 p
DRY-CABI Powerful type Low humidity type	10~50 %RH	Semiconductor, electronic parts, precision members, 3D printer metal powder Semiconductor, IC package, printed circuit board, liquid crystal glass substrate, MSD SMD substrate, crystal unit, wafer, lithium ion battery related Automotive-related base, tape reel feeder, electrode material adhesive, optical fiber CCD, electronic parts, polymer material, ultrafine particle powder, various devices Ceramics, hygroscopic resin, weight, precision mold, etc.	4 ~ 5 p
Ultra low humidity type Antistatic	1 %RH or less		6 ~ 7 p 8 ~ 9 p
Acrylic desiccator	● 25~50% RH type ● 10~50% RH type ● 1% RH or less ● 50~75% RH type ■ For science experiments, etc.		1 0 ~ 1 1 p
WET-CABI Constant humidity type Humidification · dehumidification type	50~75 %RH	Humidification is possible without water supply ◆ For electrostatic prevention and physicochemical experiments of electronic parts and precision parts ◆ Paper products, old documents, lacquerware, antiques, excavated items ◆ String instruments such as guitars and violins, woodwind instruments, etc.	1 2 ~ 1 4 p
DRY-CABI WET-CABI	Cooling, heating, etc. 5°C~10°C / 20°C~35°C	Ultra-low humidity, electrostatic prevention, cooling, heating, electromagnetic wave prevention, arts and crafts products and Storage of cultural properties	1 5 p
Glove box	Desired size / specification	Low cost glove box with dehydration device	1 6 p
DRY-CABI Small DRY-CABI	EC / NT / PH series	Mold, rust and moisture damage prevention for cameras, lenses, optical products, electronic parts and precision parts	1 7 p
Custom made example	1 8 p	Useful options	1 9 ~ 2 0 p
