Fix the main body and the wall, and cope with earthquakes with a seismic scale of 7. It can be removed and used again and again.

■ Adjuster bolt

Steel or Stainless

■ Adjuster bolt (with plate)

Steel or Stainless

DRY-CABI

Precautions for use

■ Please read the instruction manual carefully before using.

- Place it in a place that is horizontal and not exposed to direct sunlight, and that is not affected by air conditioning, heat (air conditioners) and steam that are not exposed to outside wind, and moisture.
- In automatic operation, it becomes gradually low humidity while repeating moisture absorption and regeneration.
※ Humidity accuracy in the storage is 5 to 7% RH.
- Keep floppies and magnetically affected products away from the door's magnetic rubber.
- If you insert paper or cardboard, the inside humidity

will rise. Please open and close the door quickly. Dry the damp product with cold air from the Hairdryer before inserting.

- Never put in a flammable medicine.
- The dry caviar lowers the humidity inside the cabinet to keep mold generation and reproduction. It is not effective in removing mold that has developed.
- Please note that we will not compensate if any defects occur in the stored items, even within or outside the warranty period of the product.

At the time of purchase Cautions and Requests

- If you use it overseas, please contact us in advance. Specifications and service regulations change.

- Items in the photos in this catalog are not included in the price.
- The colors in the photos in this catalog may differ slightly from the actual product.
